存在でありたい

Management philosophy

“Innovation”: Innovation to fuel our growth

“Trust”: Having a trustworthy relationship with customers

“Creation”: Create products that benefit society

Management Principles

1. Satisfied employees are the core of our Company's growth
2. Expanding as an independent leader in the dynamic industry

MegaChips' Unchanging Core Values

1990 was the year when Japanese electronic giants rapidly increased capital investment in DRAM production and dominated the global semiconductor market.

MegaChips emerged as Japan's first fabless semiconductor manufacturer to provide solutions of innovative system LSI.

Support the business success of customers with creative technology and innovative solutions.

This concept has been our unchanging core values.
